SOUTH YARRA, VICTORIA

EDUCATION

Monash University | Bachelor of Information Technology | Clayton, VIC, Australia **Jul 2023 - Jun 2027**
Major in Cybersecurity, Minor in Software Development | WAM: 74.59

- **Courses:** Systems Analysis, IT Project Management, Mobile and Web Development, IT Forensics
- **Student Clubs:** Monash Association of Coding (MAC), Faculty of Information Technology Students' Society (WIRED)

Purdue University | Study Abroad | West Lafayette, Indiana **Jan 2026 - Jun 2026**
• **Courses:** OOP, Databases, System Design Methods
• **Student Clubs:** Purdue Information Technology Professionals (PITP), Purdue Bodybuilding Club

TECHNICAL SKILLS

- **Languages (ordered by proficiency):** Java, HTML/CSS, Swift, Kotlin, SQL, Dart, PHP
- **Tools and Frameworks:** Figma, Jira, Notion, Miro, Framer, WordPress, AI Coding Agents (OpenAI Codex & Claude Code), Jetpack Compose, UIKit, Supabase, Firebase, Git

RELEVANT EXPERIENCE

AIVA | Melbourne, VIC, Australia **Sep 2025 - Present**
Product Owner & Front-End Lead

- Orchestrate front-end architecture using Dart and Flutter, leveraging agentic development workflows (Claude Code) to multiply iteration velocity and drive the product from MVP to production-ready status.
- Direct end-to-end product lifecycle, defining intent-driven technical specifications to guide AI-agent execution, ensuring feature prioritization aligns with market readiness and scalable architecture.

Freelance Technical Consultant | Remote **2025**
Platform Redesign Lead

- Led digital redesign for a fitness coaching platform; utilized business analytics and high-fidelity Figma prototyping to optimize the client booking funnel and deliver responsive web interfaces

PROJECTS

Nexa | FoundersHack 2025 **August 2025**

- Built Nexa using Bolt app builder, React, and Supabase: a student networking platform that matches university peers by courses, interests, and availability, and surfaces campus events to drive meaningful connections.

NutriTrack 2.0 | University Project **May 2025**

- A Kotlin/Jetpack Compose Android app that tracks dietary intake, computes HEIFA nutrition scores and delivers AI-powered coaching using Room (local persistence), MVVM and Retrofit/Gemini integrations.

ACHIEVEMENTS

- Competitive Natural Bodybuilder (**Top 3 National Placement**) and former Premier League Hockey Goalkeeper; recognized for elite discipline and high-pressure resilience
